MESSAGE

Dear Colleagues and Friends,

On behalf of the Organising Committee, we would like to invite you to this year's 17th Advanced Neuroradiology Course, which will be held from 5 – 6 October 2017. The one day Pre-course Interventional Neuroradiology Workshop will be held on 4 October 2017.

The Advanced Neuroradiology Course has grown in scope since its inception in 1999. We have introduced a hands-on workshop for residents and trainees. Last two year's Pre-course Neurointerventional Workshop was overwhelming and successful.

The Course aims to update, refresh and highlight advances in the practice of Neuroradiology and Head & Neck Radiology from a multidisciplinary approach.

The specially invited international and local faculty will share their expert knowledge and insights with the audience on the newest developments in their fields.

The course comprising lectures and discussion of diagnostic and interventional procedures, will be relevant to all doctors and healthcare professionals in neuroradiology, head & neck radiology, neurology, neurosurgery, head and neck surgery, oncology, and the other neuroscience disciplines.

We look forward to welcoming you at the Course.

Dr Wickly Lee

Course Director
